

*The USPS has informed Association management that requests to put additional on-site mailboxes in service will not be approved unless they are part of the comprehensive Resort facilities planned by Suncadia's developer. The Cle Elum Postmaster suggests that residents needing mail service should obtain a post office box at the Cle Elum Post Office until the new facilities are in operation. We understand that this is more than just an inconvenience for many and hope that we can report progress on new facilities soon.*
